> WHY iSiS-Ex?

The iSiS1900 and iSiS1901 are lightweight Wi-Fi Access Points that bypass the need for heavy and expensive Ex d solutions. The iSiS1900 is designed to be operated within a safe area with an Ex i antenna interface that can facilitate an antenna being placed in Zone 1 or 2, whilst the iSiS1901 comes fully certified for use in ATEX, IECEx, AEx Zone 1 or Zone 2 environments.
Because we build better solutions.

Wireless Access Point iSiS1900

- Lightweight ATEX, IECEx, CSA and AEx wireless access point
- Designed to be operated within a safe area
- Ex i antenna interface can facilitate Zone 1 and 2
- Tri-band wireless Wi-Fi IEEE 802.11a/b/g/h & Super AG
- Up to 108Mbps (Super AG mode)
- 4/128 bit WEP, WPA-PSK, WPA2-PSK, IEEE 802.1X (RADIUS) authentication
- The modes: Can be used as access point, bridge or repeater
- MAC address filtering, SSID broadcast control.

Wireless Access Point iSiS1901

- Light and inexpensive: bypasses the need for heavy and costly Zone 1 Ex d solutions
- Configurable: meets statutory Wi-Fi requirements worldwide
- Versatile: quick, easy set-up and a range of mounting options
- Adaptable: can be used as access point, bridge or repeater
- Plus all the features of the iSiS1900.

Standard power and Cat 5 connectors

LED status indicators

iSiS-Ex certified antennas available

IS antenna and ethernet 10/100Mps ports

We wouldn't say it if we didn't believe it.

More importantly, we wouldn't say it if we couldn't back it up.

We have more than 25 years' experience as oil and gas industry HMI specialists. Our products are field tested and proven to perform in the harshest conditions. We're the brand of choice for market leading oil companies the world over.

Our engineers are constantly innovating. Our Zone 2 HMI is best-in-class, designed and built to give you what you need. As are our feature-rich Wireless Access Points.

Our Zone 1 products have ATEX certification and our Zone 2 products are certified as ATEX, IECEx and CSA Class 1 Zone 2 AEx compliant.

We control quality by managing the entire design and build process – beginning to end. Everything is assembled by us and every product that leaves the building has been subjected to the most rigorous quality assurance process imaginable. We should know – we designed that too.
