We offer accessories, not afterthoughts.

For your customers, every mission is critical. But every mission is also different, with different functional requirements from their communication device.

Sonim ensures that any accessory we provide is not simply an add-on, but truly helps the device's user do their job more efficiently and more reliably.

Handset Interfaces

Sonim SecureAudio Connector

- Securely attach mission critical audio accessories
- Audio accessories thumb screw into handsets
- Power audio accessories via handset (no external batteries required)
- Increase audio performance via accessories (louder than battery-powered accessories)

Charging Pins

- Charge your device via externally exposed charging pins
- Enables drop-in and go desktop and multi-bay chargers

Sonim XPand Connector

- Extends the capabilities of the handset through rugged attached peripherals, such as XPand Direct Mode (for off-network communication)

Sonim SecureConnect USB-C

- Compatible with USB-C accessories, with the ability to create custom accessories that screw into the handset for an ultra-reliable connection

Sonim XPand

Same connector on XP5s and XP8.

Sonim SecureAudio Connector

Same connector on XP5s and XP8.

Charging Pins

Same connector on XP5s and XP8.

Sonim USB-C SecureConnect

Same connector on XP5s and XP8.

USB-C Protocol

XP8 USB-Type C USB 3.1 standard protocol. XP5s USB-Type C USB 2.0 is unable to power accessories, and is unable to be used for audio and power at the same time. XP5s USB-Type C is not compatible with 3.5mm adapters.

XPand

Sonim XPand Direct Mode for XP8

Sonim XPand Connector extends the capabilities of the handset through rugged attached peripherals, such as XPand Direct Mode for off-network communication. Sonim's XPand Direct Mode works as a long range link between other XPand Direct Mode users, for up to 1 mile over the 900 MHz ISM band. This allows for reliable off-network Push-to-Talk (PTT) and text messaging. It seamlessly attaches to the top of the handset and screws into each side, providing the most reliable connectivity and fit.

Did You Know?

Sonim's application for XPand Direct Mode supports call recording and playback.
